

Carlos Lee

Web Developer

Phone:
647-916-9691

Email:
carlos.lee008@gmail.com

Website:
<https://carloslee008.github.io/portfolio/>

Address
1241 Scottsburg Crescent
Mississauga, ON
L4W 2Z9

Skills
React.js, HTML, CSS, Bootstrap, JavaScript, MongoDB, Mongoose, GitHub, Node.js

Projects

Commute Calculator

<https://carloslee008.github.io/commute-calculator/>

Skills used: Google Maps API, React.js, HTML, CSS

Description: Using Google Maps API, created a mobile-friendly site that can search the routes from one address to another while displaying distance, time, and gas cost.

GitHub repo:

<https://github.com/carloslee008/commute-calculator>

tindog <https://carloslee008.github.io/tindog/>

Skills Used: HTML, CSS, Bootstrap

Description: A recreation of tinder, but for dogs. Worked with a variety of bootstrap components and CSS styles to create a startup website.

GitHub repo:

<https://github.com/carloslee008/tindog>

Keeper <https://rococo-druid-fd9fd0.netlify.app/>

Skills Used: React.js, MongoDB, Mongoose, Express.js, Node.js, HTML, CSS

Description: An app where you can save and delete notes. Used React practices such as hooks and refs to save and pass data onto a backend (MongoDB atlas).

GitHub repo:
